

# Tech22

Arief Hutahaeen, Emilie Burton, Jerry Tsou and Ryan Kim

**HMW** allow people to have positive digital interactions while feeling safe and empowered?

## Top 3 Ideas

---

- 1 Terms of Service Evaluator
- 2 Fake Identity Provider
- 3 Authentication Fob

# Terms of Services (ToS) Evaluator

- Digital Interactions reliant on Services (i.e. Google, Facebook, LinkedIn).
- Plugin to parse through ToS and detect key terms and phrases.
- Best practices to understand what you're using and how it works.

Class C

-  This service may collect, use, and share location data
-  The service can read your private messages
-  This service tracks you on other websites
-  You agree to defend, indemnify, and hold the service harmless in case of a claim related to your use of the service
-  Blocking cookies may limit your ability to use the service

# Fake Identity Provider

Why don't you hide the real you?

This product automatically creates a **fake digital account** for you with a click, bringing you to the website without worries about your credential and targeted advertising.

- Hide your name, email, browsing history, location, phone number, personal interests...
- Control your own data and decide whom to share with

# Authentication Fob

- Streamlines process of accessing information
- Works on multiple devices
- More secure as physical device is needed to access info.

**Thank You**
